Application Mock-Up Doc & Prototype Screen Shots

Team O

Digest This Date

Digest This Date is just a placeholder name for the app we are developing. This is an early stage mock-up showing some of the basic functions our team plans on adding to our app. The Prototype designs are not final but more just place holders to show the basic needs our app will fulfill for our user. The following three pages will show screen shots of the Prototype created and a link to the YouTube Video of the live demo of the prototype.
